HIGH PRESSURE PRODUCTS VALVES, FITTINGS & TUBING

MEDIUM PRESSURE VALVES, FITTINGS & TUBING
PRESSURES TO 21,000 PSI

HIGH PRESSURE VALVES, FITTINGS & TUBING
PRESSURES TO 65,000 PSI

ULTRA HIGH PRESSURE FITTINGS & TUBING
PRESSURES TO 152,000 PSI

VALVE ACTUATORS

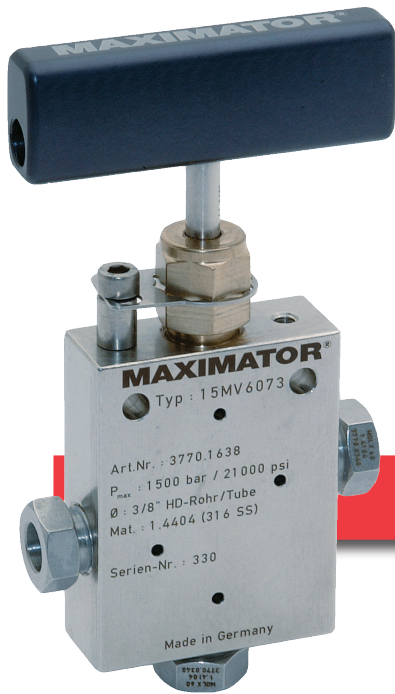

BALL VALVES
PRESSURES TO 21,000 PSI

ADAPTERS, COUPLINGS & ACCESSORIES

TOOLS & INSTALLATION

About MAXPRO Technologies

At MAXPRO Technologies our industry experience is unparalleled. Whether for General Industrial, Oil & Gas, Water Jet, Chemical or Petrochemical applications, MAXPRO is prepared to support your needs.

Our guiding principles are: safety, quality and dependability. We are the quality based solution you expect, for a fair price. You can also expect unmatched quick delivery from MAXPRO Technologies.

The MAXPRO team consists of experienced engineers and technicians who have worked in the high pressure industry for decades. Our people and their knowledge are readily available to you, our customer. We know the high pressure industry, and we know elevated pressure products, systems and accessories. This experience makes MAXPRO Technologies the right choice to bring high quality products, systems and solutions to you.

Our customers can expect a single source solution for:

- ▶ High Pressure Valves, Fittings & Tubing
- ▶ Liquid Pumps
- ▶ Gas Boosters
- ▶ Air Amplifiers
- ▶ Packaged Power Systems
- ▶ Portable Test Carts & Benches
- ▶ Repair

MAXPRO Technologies is a privately owned company with a North American presence located in Fairview, Pennsylvania. Our Houston, Texas operations, MAXPRO South, services the Gulf Coast area. Call us today, or visit us on line at www.maxprotech.com (Fairview) and www.maxprosouth.com (Houston).

Valves, Fittings & Tubing

Maximator has been designing and manufacturing high pressure equipment for more than thirty years and has a worldwide reputation for quality and reliability, backed by one of the best service organizations in the industry.

► Medium Pressure

(Pressure to 21,000 p.s.i.)

A complete line of medium pressure valves, fittings, tubing, check valves, anti-vibration fittings and safety head assemblies are available through our catalog. All medium pressure valves and fittings use a coned and threaded, medium pressure style connection.

► High Pressure

(Pressures to 65,000 p.s.i.)

Whatever your high pressure needs, MAXPRO is the source. We supply a complete line of high pressure valves, fittings, tubing, check valves, line filters, anti-vibration fittings and safety head assemblies. All high pressure valves and fittings use the high pressure coned and threaded style connection.

► Ultra High Pressure

(Pressures to 152,000 p.s.i.)

In addition to our medium and high pressure lines, we are proud to offer a complete line of ultra high pressure, fittings and tubing. They come standard with the 5/16" ultra high pressure coned and threaded connection.

► Valve Actuators

Piston type, air operated, valve actuators are also available from MAXPRO. They are mounted on a standard manual valve body to provide remote control capability. There are two air to open actuators available, and the selection is based on the valve size, system pressure, and air pressure available.

► Ball Valves

MAXPRO now offers ball valves of exceptional quality and performance with a variety of valve styles and process connections. Please consult the Valves, Fittings & Tubing catalog for availability.

► Couplings, Adapters & Accessories

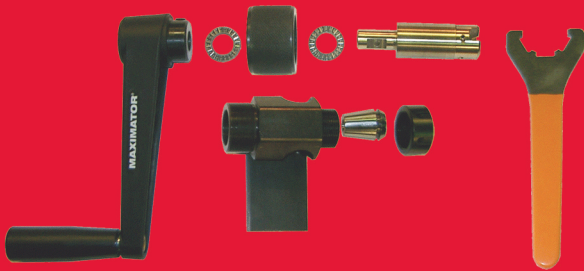

Joining two different sizes and/or types of connections is easy with the couplings and adapters offered by MAXPRO. Now a variety of size combinations are possible!

► Tools & Installation

Precise tools are necessary for manually coning and threading tubing. MAXPRO offers these tools, allowing for the coning and threading of medium

NEW!

MAXPRO Technologies offers a complete line of MAXIMATOR air driven products to help you improve the efficiency and cost effectiveness of your operation.

These MAXIMATOR components include liquid pumps, air amplifiers and gas boosters. In addition, MAXPRO has a wide range of standard and custom designed packaged power systems that provide economical, turn-key solutions for a wide range of liquid, air and gas applications.

For more information, request one of MAXPRO's Pump, Amplifier or Booster catalogs, or visit us online at www.maxprotech.com.

We accept Visa, MasterCard and American Express.

All technical and dimensional information subject to change.

All general terms and conditions of sale, including limitations of our liability, apply to all products and services sold.
